

IMPACT FOOD

Parent Ordering

Impact Food App

The ordering platform is supported by a company called Kanpla, one of our technology partners.

It is user friendly, easy to use and has been designed to be as simple as ordering something from Amazon.

Impact Food Group

How does it work?

How links work

Ease of accepting

Navigating the Impact Food Group app

Adding a balance

Placing orders

Ordering with allergies

You will receive a link from Kanpla
via email.
One child = One Link

Siblings can be linked together
when the parent uses the same
email address on each link

Links are generated from
information provided by the school
MIS (Management Information
System) data

Currently, pupil links can only be
sent to one parent

Once the link is accepted it cannot
be used again

Links will automatically be sent to
the primary contact email address
you have given the school office

How links work

Accepting the Link sent to you:

Each child's link will need to
be manually accepted

Check the Student name,
Class, Year Group and School.
If correct, press Yes

Is this correct?

Does your child have an allergy?

Allergens

Please select your food preferences, so we can inform you of potential allergies.

 Gluten 

 Crustaceans

 Fish

 Milk

 Mustard

 Peanuts

 Soy

 Celery

 Egg

 Lupine

 Molluscs

 Nuts 

 Sesame

 Sulphur dioxide and sulphites

☐ I have other allergies not listed above

You will be required to upload medical evidence for any selected allergy 

Confirm no allergens

Allergens must be declared before moving on to the meal ordering page

If the student does not have allergies, press 'Confirm no allergens'

If allergen is not listed, please type in the below box

☒ I have other allergies not listed above

Please specify

Filtering for Preferences

It is possible to filter meals to only show Vegan, Vegetarian or Halal (if offered), select the preference and continue.

Can be skipped or confirmed as no preference

Adding Balance

The screenshot shows a mobile application interface for a school lunch system. At the top, there is a navigation bar with 'Home', 'Order Lunch', a bell icon, and a user profile icon. The main content area is divided into three sections: 'ACTIVE USER', 'BALANCE', and 'SETTINGS'. The 'ACTIVE USER' section shows 'Castledon Student' from 'Castledon School' with an edit icon. The 'BALANCE' section shows '£0' and a '+ Fill up' button. The 'SETTINGS' section has an 'Account history' link. A modal titled 'Deposit money' is open, asking 'How much credit do you want to add?'. It features a text input field with '£ 20', a numeric keypad with buttons for 5, 10, 20, 50, and 100, a 'Card' payment method selector, and a checkbox for 'Save the card for later payments'. A large green 'Deposit' button is at the bottom of the modal. A blue arrow points from the '+ Fill up' button in the 'BALANCE' section to the 'Deposit money' modal.
